FRIDAY MARCH 13

19:00 - 21:00. Photo Night

Participants are invited to bring 10 to 20 digital images or slides around the theme of modelable subjects. This can include locomotives, cars, structures, bridges, scenery or almost anything else. The idea is to inspire someone to build a model. We will have a computer and digital projector so bring your photos on a thumb drive. We will even have a projector for old school slides upon request.

SATURDAY MARCH 14

09:00 – 16:00

Our goal: To provide a venue to exhibit how models are built to accurately reflect their real world counterparts past or present. Emphasis is placed on sharing information, modeling techniques and most importantly, displaying one's own models.

This is basically a "Show and Tell" meet where modelers can bring engines, rolling stock, structures, etc. to show and share techniques and to get inspired to finish their projects. There is no model judging. These items need not be in the finished state. This is a chance for interaction between builders and modelers who would like to learn from the models being shown. In other words, an exchange of ideas.
