I am looking for used Athearn Blue Box F units. Please email me at:

Thanks,

I have a Lionel O-gauge kid's set from the early 50's that I would like to see go to a good home. I've owned it since my dad bought it for me in the early 1950s. Everything works but I haven't had it out of the packing for 20 years so it is time for it to go. If I recall one of the clearance lights is broken off the locomotive (ran it off a table – oops)

Engine / coal tender / two cars / caboose with transformer and about 20+/- pieces of track.

Is there anyone I might contact in order to find a good home for this set?

I don't want a lot of money for it – possibly free to the right person. I can deliver in Calgary.

I am looking for a HO layout that is semi or complete. I would like to get back in the hobby but I don't have the time to build one from scratch. If anyone is looking to part way with their layout can you please advise me.
